## KATIE MCGINTY'S STRONG RECORD

### **On Raising the Retirement Age:**

“One part of having a good job is earning a secure retirement. And I do disagree with Congressman Sestak He has said that it was courage and the proper thing to do to call for the Social Security retirement age to be lifted to 69, and significantly cut benefits. My parents retired on Social Security. We couldn't have made it without it. **That's the wrong choice and wrong for working families.**”
